

NORTH AUSTRALIA 8/8 – 3/10 2007

By Jens Ole Byskov

This is a birdreport from a 8 weeks trip to north Australia. It was entirely arranged by myself. I was accompanied by Frank Sørensen. We are both from Esbjerg. Most days we watched birds in the mornings, and if the heat allowed it, we also watched in parts of the afternoon. A few days were not used to birdwatch but for sightseeing or resting. We started and ended in Darwin. Drove about 10.000 km in a rented campervan. The nights were mostly spent in caravanparks or in parkplaces along the highways. In northern Australia it is possible to travel fast, as the highways are straight with little traffic. We drove from Darwin to Cairns, from Cairns to Alice springs, and from Alice Springs to Darwin. We found 341 different species, and among them were many of the birds, I sincerely wanted to see. We used no professional guides or local birdwatchers.

8/8 – 9/8 DARWIN. We had to spend 48 hours in Darwin, as our luggage did not arrive with us. We did not have a toothbrush or clean underwear. Be sure not to travel with Tiger Airs from Singapore. It was nothing but troubles both ways. It is easy to find good birdwatching places in Darwin or nearby.

10/8 FOGG DAM and MARY RIVER was visited. Fogg Dam is one of the best wetland areas in northern Australia. The nearby woodland and forest is very good too.

11/8 – 15/8 KAKADU NATIONAL PARK. This huge nature area has different habitat. Eucalyptus forest and bush, wetlands and mountains.

16/8 MATARANKA. This place is south of Kakadu close to Stuart Highway. It has beautiful warm springs. The water is 30 degrees warm and crystal clear. Good for swim. In the afternoon driving south on Stuart Highway to DAILY WATERS then east into the BARKLY TABLELAND.

17/8 The road on Barkly Tableland to the homestead HEARTBREAK HOTEL . Eucalyptus savanna and grasslands.

18/8 BARKLEY HOMESTEAD continuing to CAMOOWEEL.

19/8 Morning spent at river near Camooweel. Afternoon on the road to MOUNT ISA.

20/8 All morning at LAKE MOONDARRA 20 km from Mt. Isa in a mountainous area. The afternoon on the road from Mt Isa to Cloncurry and on to Julia Creek. Huge areas of grasslands.

21/8 Continuing on the road from Julia Creek east to WHITE MOUNTAIN NATIONAL PARK.

22/8 On the roads from White Mountains to Charter Towers to Reid River and Townsville. Late afternoon in BOWLING GREEN BAY NATIONAL PARK south of Townsville.

23/8 Townsville to Paluma National Park.

24/8 – 25/8 PALUMA NATIONAL PARK. One of the best mountain rainforests in Australia. Beautiful forest and easy accessible by car. Hot spot.

26/8 The day spent at JORANNA FALLS on the road to Ingham.

27/8 Road Joranna Falls – Ingham – Cardwell. Late afternoon at EDMUND KENNEDY NATIONAL PARK.

28/8 Morning at Edmund Kennedy National Park and afternoon Hulls Heads on the coast.

29/8. Continuing north from Hulls Heads to Innisfall and to Josephine Falls and the nearby GOLDEN HOLE.

30/8 Morning at EUBENANGEE SWAMP then onto CAIRNS.

31/8 Cairns city. A boattour to Great Barrier Reef to see the reef and fish. Not many birds.

1/9 Cairns Explanade and Airport Mangrove.

2/9 DAINTREE NATIONAL PARK. Beautiful rainforest. But most is private and closed for public. The few open places are full of tourists. Quite disappointing.

3/9 Drove to Atherton Tableland. Visiting MAREEBA WETLANDS and GRANITE GORGE.

4/9 Different places visited. Granite Gorge, Atherton and DANBULLA NATIONAL PARK.

5/9 Danbulla National Park in the morning and Lake Eacham both with good rainforests.

6/9 Different places on the Atherton Tableland. LAKE BARRINE, BROMFIELD SWAMP and the road from Yngaburra to Ravenshoe.

7/9 On the road from Ravenshoe to UNDARA NATIONAL PARK.

8/9 Most of the day spent at a small lake just west of GEORGETOWN.

9/9 On the road from Georgetown – Normanton – Karumba. Afternoon birdwatching around the fishing town of KARUMBA.

10/9 On the road Karumba – Normanton – Clooncurry.

11/9 Mt. Isa

12/9 On the road Mt. Isa – Camooweel.

13/9 On the road Camooweel – west to Tennant Creek.

14/9 On the road Tennant Creek south to Alice Springs.

15/9 – 16/9 Alice Springs town and surroundings.

17/9 – 18/9 WEST MACDONNELL RANGES

19/9 Alice Springs

20/9 – 22/9 EAST MACDONNELL RANGES.

23/9 Alice Springs.

24/9 On the road Alice Springs – Tennant Creek.

25/9 On the road Tennant Creek – Mataranka. Birdwatching around Mataranka and ELSEY NATIONAL PARK.

26/9 Morning at Elsey National Park. Afternoon on the road Mataranga – Kathrine.

27/9 NITMILUK NATIONAL PARK and EDITH FALLS.

28/9 – 29/9 LICHTFIELD NATIONAL PARK

30/9 – 1/10 – 2/10 DARWIN and surroundings. Also visit to PALMERSTON SEWAGEPOND on the 2/10.
